Objective

I'm Computer science student and a frontend web developer. I'm looking for a junior developer opportunity to apply my academic knowledge in a software house environment. I have spent 3+ years developing software in college. Especially web applications.

Skills

- | | | |
|------------|-------------------|------------|
| - HTML, | - UI/UX | - React.js |
| CSS(SASS), | - Webpack | - PWA |
| JS(ES6) | - Node.js and NPM | - git |

Independent projects all available on my GitHub

- **[OSC-Geeks](#)** HTML | CSS(SASS) | JS(vanilla)
Showcase/registration website I made for a student activity in my college.
Features
 - a. Explore available committees in the activity.
 - b. Register for an interview when the recruitments are held
- **[PIGDICE](#)** HTML | CSS(SASS) | JS(vue.js)
The good old pig dice game. Except a highly customized web app.
Features
 - Customized character to play with / objective (when do you win).
 - Available as a PWA (progressive web app)

College projects

- **[Sudoku game](#)** C++(& SFML) | (1st semester) | course: Structured programming (SP)
- **[Mini LMS](#)** Java(& JavaFX) | (3rd semester) | course: Object Oriented Programming (OOP)
- **[OS memory manager](#)** C | (5th semester) | course: Operating Systems (OS)
- **[HTTP server](#)** C# | (5th semester) | course: Computer Networks (CN)
- **[Bookstore website](#)** HTML, CSS, JS | (1st year summer training)
- **[To-Do Android app](#)** Java | (2nd year summer training)

Education

Bachelor of Computer and Information Science(Computer Science dpt.)
Ain Shams University 2019-2023(expected)
